BASKETBALL

The West Liberty Red Devils met their second basketball defeat in eight starts when they lost to the Morehead Vikings Tuesday night in the local gymnasium by a heartbreaking score of 22-23.

West Liberty went into the game without the help of their big center, Lawrence Bruce McLean, who is ill, and the Devils had the Vikings trailing throughout the game, until the last ten seconds of the play. The score stood 21-23 in favor of West Liberty with ten seconds to go, when Morehead got the ball and the Viking center hurled the ball thru the net for a final score of 22-23 in favor of Morehead.

The West Liberty Red Devils defeated the Jackson basketball team by a score of 19-28. McLean held scoring honors with 15 points to his credit.

ATTENTION WORKERS

C. W. Saling, manager of the Pikeville United States employment service office, said this week that workers in this area had caused themselves a great deal of inconvenience by leaving their jobs here to go to other areas without first obtaining statements of inter-area clearance.

Saling explained that the worker has a valid reason to change jobs, and can contribute more to the war effort by leaving this area and accepting employment in another area. He should first ask his employer for a release, or a statement of availability, giving his reasons for wishing to change jobs.

Before leaving this area, regardless of whether or not the employer issues a statement of availability, it is necessary that the worker visit the Pikeville office, the Paintsville office, or see one of our representatives at one of the established itinerant points to procure a statement of inter-area clearance. Don't leave this area to go to other areas until you get a statement of inter-area clearance. War plants in other cities in Ohio, Michigan, or Kentucky can't hire you unless you have a statement of inter-area clearance from your local United States Employment Service office. This area consists of Floyd, Johnson, Letcher, Magoffin, Martin, Morgan, and Pike counties.

DINGUS

Reported by R. H. Ferguson

Nov. 22—Mrs. Addie Ferguson of Relief writes us from a hospital in Paintsville that she gave birth to an 11 pound boy, and will be home in a few days.

Elder A. C. Bradley attended church at New Salem Sunday, and Ben Bolen and Elder and Mrs. D. W. Beuchimer, at War Creek.

Mr. and Mrs. M. C. Bradley are preparing to leave at once for Dayton, O., to work this winter. His son Wendell Bradley, and wife, of West Liberty, are moving into the house vacated by M. C. We regret very much to lose both Mr. and Mrs. Bradley, as they are among our very best citizens.

J. E. Jenkins has gone to Piqua, O., in search of work. He was accompanied by his son-in-law, Bee Smith of Jephtha.

Dr. and Mrs. C. C. Burton of West Liberty were here one day last week to administer medical aid to Mrs. R. H. Ferguson, who is having quite a severe case of appendicitis. The following children have been to her bedside: Mrs. Verna Hibbard of Lexington, Mrs. W. T. McClain of Ashland, and Mrs. John Madden and son Billy Stidham, of Portsmouth, O. Her condition remains very critical and she was rushed to Ashland Monday in Potter's ambulance of West Liberty, accompanied by her children, and will probably be operated on this week.

Glen McCoun of Winchester drilled a light gas well on Sandlick, and moving his rig to the station here. There is some talk of drilling on the Sandlick.

IN MEETING HERE

WEST LIBERTY BAPTIST CHURCH

A. A. BRADY, PASTOR

Revival Services Begin Sunday

As has already been announced, Rev. W. L. Crumpler of Louisville will be with us for revival services.

Brother Crumpler is a good preacher of the word. He preaches the Bible, not philosophical essays. You will enjoy hearing this man of God, as well as the fellowship of the good people of the church.

The pastor will lead the singing. We want to sing the old songs that all of us so much enjoy. We hope that all will come and join in this part of the service.

The purpose of this meeting is twofold. First, our concern is in the lost men, women, boys and girls who have never been saved from the bondage of sin.

Every one of these people is precious to God and valuable to kingdom service and we must win them from the hands of Satan, whose only purpose is destruction.

"He that is not with me is against me," said Jesus. The second purpose of this meeting is to revive the hearts of all the saved, from the heart of the preacher to the back-sliding church members who never come to church. We should unify our solidly our forces to the last member so that we may carry on the work of the Lord in a manner commensurate to our opportunity and responsibility.

There will be two services: daily at 10:00 a. m. each day including Saturday, and at 7:30 each evening. There will also be prayer meeting each evening from 7:00 to 7:30; one for the men, one for the women and one for the young people. Unless we pray much, we will not have revival.

Services this week: Thursday, 7:30 p. m. prayer and business meeting.

Saturday, 7 p. m. services at Wrigley at the home of Mertha A. Lykins, by A. A. Brady.

Rev. Carroll Hubbard of Louisville assistant general secretary of the Baptist state board of missions, will be with us for the Sunday morning service.

BRADYS RETURN HOME

Rev. and Mrs. A. A. Brady and children left here Sunday afternoon, Nov. 14, for Louisville, where they spent the night with Mrs. Brady's brother and sister-in-law, Rev. and Mrs. Grady Watson.

On Monday they drove to Bowling Green to attend the meeting of General Association of Baptists in Kentucky, in which Rev. Brady was one of the speakers on the state mission program Tuesday night.

They returned Thursday to Louisville by the way of Hodgenville and Bardonia. From Louisville they returned home Saturday by the way of Georgetown and Paris.

Mrs. Brady's parents, Mr. and Mrs. W. E. Watson, accompanied them on the trip and returned home with them.

STRAIGHT CREEK

Reported by Mrs. Pearl Elliott

Nov. 22—Henry Lee Adkins departed this life after an illness of about four weeks.

Carl Whitt of Redwine got a leg broken Friday while working in the mines. He was taken to a hospital at Ashland.

Mr. and Mrs. Dennie Adkins were at West Liberty Saturday.

Mr. and Mrs. Clarence Conley of Bellville, O., have been visiting their parents, Mr. and Mrs. Merida Conley, and Mr. and Mrs. Marion Adkins.

Clarence returned to his work but left his wife and children to stay with the Christians.

Miss Lucy Adkins, who had been staying with her sister, Mrs. Clarence Conley at Bellville, O., returned to her home at West Liberty.

DeLONG

Roile DeLong of Lexington was born Feb. 26, 1901, died Monday, Nov. 15, 1943, at the Good Samaritan hospital with heart trouble and pneumonia, at the age of 42 years, 8 months, and 11 days.

He was united in marriage to Flossie Lee Elam in 1924. To this union were born four children: Harold, age 17, Minnie Dell, 15, Mary Margaret, 9, and Doris Lillian, 7.

He is survived also by his mother, Maggie DeLong, two sisters, Mrs. Frank Conley of Malone and Mrs. Verne Stambaugh of Gosport and four brothers, Cletis DeLong of Florence, Estel of Ashland, Drowning of Hard-boiled, and Ova of Louisville.

In his youth he gave his heart to God, and was a member of the church of Christ. He was a devoted husband and a kind father, and was loved and respected by all who knew him.

Funeral services were conducted by Rev. J. P. Walters of Nickell and Rev. Columbus Fain Stone of Lexington on Wednesday morning at the home of his parents-in-law, Mr. and Mrs. W. T. Elam. The body was laid to rest in the L. C. Elam cemetery.

"The Lord giveth, the Lord taketh. Blessed be the name of the Lord." (Job 1:21)

WEEKLY NEWS ANALYSIS

Nazis Wreck Northern Italian Ports To Hamper Future Allied Operations; United Nations Formulate Relief Plan; U. S. Issues Current Casualty Figures

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union news analysts and not necessarily of this newspaper.)

Released by Western Newspaper Union

Allied Pact—Seated around conference table from left to right, U. S. Secretary of State Cordell Hull; Russian Foreign Commissar Vyacheslav Molotov, and British Foreign Minister Anthony Eden, sign historic pact in Moscow, calling for League of Nations to preserve postwar peace.

Said Hull: "We agreed upon a broad, basic program of international co-operation. The program contemplates the hastening of victory . . . the preservation of peace and the promotion of human welfare . . ."

ITALY: Destroy Ports

Italy's northern ports of Leghorn and Pescara were blocked by Nazi demolition squads to render them useless to the Allies for future operations, or in the event Gen. Dwight Eisenhower attempted landings above Rome to trap German forces.

Gen. Eisenhower's plan to land at Anzio, Italy, was blocked by the demolition squads. The plan was to land at Anzio, Italy, and then move inland to Rome.

Other German divisions held up the front line. The German forces were determined to prevent the Allies from advancing into Italy.

Fit Italy Into War

To get Italy functioning on the side of the Allies, Gen. Dwight Eisenhower established a control commission headed by Maj. Gen. Kenyon Joyce, formerly of the 9th service command.

Purpose of the commission will be to fit the country's agriculture and industry into Allied war plans, and to regulate Italian governmental administration.

To prevent any political party from establishing its hold over the country through military force, the commission will control Italy's revived fighting services.

Advising the commission will be the U. S., British, Russian and French committee on Mediterranean affairs, and Greece and Yugoslavia will be included later.

WORLD RELIEF: Allied Plans

Assembling in the east room of the White House, representatives from 44 United Nations signed an agreement for the relief and rehabilitation of Europe, with each country providing supplies to the limit of its capacity.

Of the 46 million tons of food, seed, fuel, clothing, raw materials, machinery and medical supplies that will be needed for European relief during the six months following the war, the U. S. will furnish nearly 9 1/2 million tons, Great Britain 3 1/2 million tons, Europe 29 million tons, and other regions 4 million tons. Congress will appropriate the funds for American participation.

Stated for appointment as director general of the relief and rehabilitation administration was former Governor Herbert Lehman of New York. Purpose of the administration is to aid over distressed people of reconquered areas until they can put their factories and land back into production.

HIGHLIGHTS . . . in the week's news

TIGERS: The Detroit Tigers baseball club will go to Evansville, Ind., for their spring training period.

COAL: The emergency regulations on delivery of soft coal have been relaxed, Secretary Ickes announced. As modified, the rules state that a dealer cannot sell coal to a customer who has 30 days supply on hand.

CROPS: Weather Helps

Profiting from favorable weather, the 1943 corn crop was estimated at 3 billion, 85 million bushels by the department of agriculture on the basis of conditions November 1. This compared with last year's record crop of 3 billion, 175 million bushels.

Wheat, the second largest crop, was estimated at 1 billion, 148,000,000 bushels; oats, 1,148,000,000; barley, 330,212,000; rye, 33,314,000; flaxseed, 51,406,000; soy beans, 206,017,000; rice, 69,019,000; potatoes, 490,092,000; sugar beets, 7,259,000 tons, and peanuts, 2,681,955,000 pounds—record highs for rice, potatoes and peanuts.

Hogs Crowd Markets
Chicago's sprawling stockyards teemed with over 60,000 live hogs after a high three-day shipment of 128,552 head, which compared with 85,552 for the previous week and 68,418 for the same period of 1942.

As a result, packers paid the "floor" of \$13.75 for only the heavier weights out of the 200 to 275 pound range on which the government has pledged price support. Packers obtained many bargains in classes for which no "floor" has been constructed.

So called "floor" prices were high on the flooded market, controlling the lowest prices since last December.

SOUTHWEST PACIFIC: At Japs' Rear

Pursuing his policy of pinching off Japanese strongholds in the Southwest Pacific by cutting off their communications, Gen. Douglas MacArthur has established U. S. forces to the rear of the enemy's important forward base of Buin on Bougainville island in the Solomons.

With U. S. marines and doughboys standing astride the Japs' communication lines leading to Buin, they were in position to strike against the enemy supplies, and his main body from the rear.

Bougainville is the Japs' last important holding in the Solomons, and apparently they were determined to take advantage of the wild nature of the humid, tropical island for another long, delaying action.

U. S. CASUALTIES: Total 120,967

U. S. casualties totaled 120,967 for almost two years of war, with the army reporting 89,648, and the navy 31,317.

Of the army casualties, 12,841 were killed, 30,263 wounded, 23,952 missing and 22,592 prisoners. Since the landing at Salerno, September 9, the U. S. suffered 8,556 casualties in Italy, with 1,295 killed, 4,764 wounded and 2,497 missing.

Of the navy casualties, 12,548 are dead, 5,542 wounded, 8,999 missing, and 4,228 prisoners.

Of the nearly 7,700,000 men in the army, about 2,500,000 men will be serving abroad by the end of the year.

RUSSIA: Attack Last Railroad

Russia's last north-south railway came under the attack of Red troops as they pressed forward on a 70-mile front west of recaptured Kiev. As the Russians drove against the railroad, other forces of their army continued attacks on Nevel, less than 50 miles from the Latvian border in the north, and on Krivoi Rog in the south.

At Krivoi Rog, the Germans continued to hold open an escape corridor for the last columns of Nazi forces pulling out of the huge bend of the Dnieper river, where early Russian attacks had threatened them with encirclement.

Crossing into the eastern Crimea from the Caucasus, strong Russian forces drew up for a major attack on the 75,000 German troops reportedly massed in the huge peninsula, guarding the Black sea. The Nazis held their ground at the north entrance to the Crimea.

TIRES: Continued Shortage

Although production of synthetic rubber is expected to total 818,000 tons in 1944 compared with 233,000 tons this year, only about 30 million tires will be manufactured to meet needs of essential users of cars, light delivery trucks, taxis and farm vehicles. Ordinarily, 50 million tires are made a year.

Tightness in the civilian tire supply will prevail because of military requirements, scarcity of manpower to operate fabricating equipment, reduction in the peace-time inventory of tires, shortage of rayon cord for heavy duty tires, and the cut in crude rubber imports.

To obtain maximum use of present tires, the rubber manufacturers' committee counseled drivers to preserve their tire carcasses, or bodies, for recapping by protecting the walls and not running down treads. Further, the committee advised low speeds, adequate air for tubes, and proper alignment for wheels and axles.

Homemade Penicillin

One of medicine's most precious cures, magical penicillin, is being produced at "five cents a plateful" by Dr. Julia A. Vogel in the kitchen of his Pittsburgh, Pa., residence. Properly equipped, any doctor can grow his own supply, Dr. Vogel says.

Plant physician for the Jones and Laughlin Steel corporation, Vogel has used his penicillin to treat external infections, with complete cures effected in more than a score of cases.

CHILD DELINQUENCY: Supervision Needed

During the last year, delinquency among girls has increased 38 percent and among boys 11 percent, Katherine Lenroot, chief of the children's bureau of the department of labor, declared.

With 5 1/2 million women with children under 14 years of age working, and many fathers in service or sleeping days, a general weakening in home supervision is a contributing cause for the delinquency, Miss Lenroot said. More than one million more women will be needed in industry this year, she reported.

Other factors of delinquency, Miss Lenroot asserted, are lack of school facilities in war-expanded communities, and the increase in child labor to five million this year. "There would be little juvenile delinquency today if children were treated as much of an emergency as armament production," Miss Lenroot concluded.

LEND-LEASE: British Aid

Up to last, June 30, British lend-lease assistance to the U. S. totaled 871 million dollars, of which the major share consisted in supplying base facilities, barracks and hospitals for American land and air forces in the United Kingdom. Incomplete figures indicated assistance to date has topped one billion dollars.

Not included in the accounting, the British said, was the cost of food furnished on the fighting fronts where no adequate records could be kept, and the value of information and experience gained in battle and relayed to the U. S. army and industry.

The British assistance does not include lend-lease granted the U. S. by Australia, New Zealand, South Africa and India, who operate under separate agreements. On August 25, President Roosevelt reported U. S. lend-lease assistance to Britain alone totaled nearly 4 1/2 billion dollars.

BUILDING

In the first 12 months after the final armistice there will be five and a quarter billion dollars spent on private construction, according to a survey of the nation's building needs. About 8 1/2 billion will be expended annually between 1947 and 1951, the report estimates.

Residential building will reach its high point before 1950, and dip to a low in the middle 1950s. Commercial, industrial and community buildings will total over a billion dollars a year between 1947 and '51.

U. S. Office of Air Safety Guards Cadets in Training

Accident Statistics Prove Value of Regional Safety Officers' Work; Program Has Three Main Divisions.

By BAUKHAGE

News Analyst and Commentator.

WNU Service, Union Trust Building, Washington, D. C.

The army air force has been around the world 134,078 times! That is what air miles add up to—three billion, three hundred and fifty-two million in the fiscal year 1943.

Just how safe is the job of a pilot? Not the job where you have to count on the enemy fighters and the neck-neck, but the job of learning to be a pilot.

"Ninety-five out of every hundred army air force cadets are going through their flight training program with no personal injury of any kind," says Col. Sam Harris, chief, army air force office of flying safety.

The office of air safety is the institution which has built safety into training programs as a highly emphasized part of the whole regime. It has three main principles.

Initial Phase

The first is "prevention and investigation," and the keynote here is experience. The 54 officers who take care of this end of the work have a total air experience of 33 years, 318 days in the air. These men, known as regional safety officers (RSOs) are assigned to each air force and command in the United States.

Here is an example of how the RSO works. He goes to a certain field. He meets some cadets who say they haven't had any breakfast. He puts them down in his notes. He looks the place over, rates a ditch parallel to a runway. He orders the ditch filled, 12 ft. with the most efficient and has breakfast served earlier. Then he tackles the boys themselves. He gives them a talk on the importance of instruments. Three separate moves and the accidents are cut down there.

The second principle is "flight control." Here is where the flight control officer, traffic cop of the air, comes in. For traffic control is as important in the air as on the street. The men of this force offer a Pilot's Advisory Counsel. This service leads pilots through or around dangerous traffic or weather conditions.

Suppose the flight control officer in the Seattle center knows Lieutenant Smith is headed in that direction. He also knows that a "cold front" is moving across his path. So he radios Smith, tells him to make for an alternate airport.

No. 3 on the list of safeties is "safety education."

Safety Education

Most of the accidents in training in the United States are due to personnel error—the fault of the human being, not the weather or the machine. This education comes through special movies, through manuals, through cartoons and posters.

Here are some of the slogans that help: "Hitler and Hirohito cheer . . . when you forget your maps . . . when you pay no attention to telephone wires . . . when you jam on your brakes . . . when you don't check your gas . . ."

Other points are driven home with a little sardonic humor such as "when a pilot thinks he's pretty hot, he's usually close to burning." "To grow old in the natural way, a pilot has to use his luck sparingly . . ."

The first six months of 1943 compared with all of 1942, show these percentages of reduction of accidents:

| | |
|--|------|
| In primary schools | 2.3% |
| In basic schools | 5.5% |
| In advanced schools | 11% |
| And just see the table for accidents as miles flown go up! | |
| 1921-30—Miles flown, 155,818,000— | |
| accident rate, 2.11. | |
| 1943—Miles flown, 3,351,940,000— | |
| accident rate, .718. | |

That's how America is learning safety in the skyways.

War Brings Recognition To Psychiatry

There will be so many changes after the war that it is of words will not even have the same meanings. New things and new thinking will appear and people will have to learn the new words in order to think the new thoughts.

Already the war has caused psychiatry to be "adequately recognized," according to Dr. Richard

Hutchings, who is the author of "A Psychiatric Word Book" published by the New York State Department of Mental Hygiene and now in its seventh edition.

This is not a book for laymen but it is exceedingly interesting to scan its pages just to see how ordinary words can achieve new meanings as new thoughts about new things develop. The word book is invaluable to the doctor and many others who will be more and more concerned with this important study of interpersonal relations—psychiatry.

Let's take a layman's look at the pages of the little pocket volume.

Starting at the beginning with "a. an." Not the simple articles they look! The definition is not new in this case, but shows the special meaning the person who reads psychiatry must know. The definition reads:

"Prefixes derived from the Greek and having the same meaning as the prefix un- or the suffix -less. Without; absence of; not. Cf. amnesia, anosmia."

That takes us to amnesia which means (1) absence of intellect; (2) a state of mind bordering on stupor; (3) feeble-mindedness.

You have heard of behavior but what is behaviorism? It is "the psychological theory which holds that correct conclusions in psychology must rest upon objective study and interpretation of behavior."

You have also heard of conversion. Here is the psychiatrist's meaning of it. "The process by which an emotional trauma (that is an emotional 'wound') after repression becomes converted into a physical symptom in hysteria."

Practical Application

If you think that sounds too high brow, just recall the remark: "He's had that squint ever since he saw that terrible accident."

There are a lot more interesting new meanings clear over to the last word "coopsal" which you know all about if you ever saw "Ten Nights in a Barroom," the great prohibition play. "Zoopsia" is what we (incorrectly) call "D.T.s." The definition is "a visual hallucination of animals or insects."

The little book also has an appendix in which there are careful and more detailed descriptions of the emotions—anxiety, fear, pride, vanity, etc., which we now know are as dangerous to our mental health when they get out of control as a flock of flu germs are to our bodily welfare.

I'll give you a definition of the one emotion which is highly important because when it gets the upper hand in politics, it can do as much harm to a form of government as an individual.

Egoism and egotism are not synonyms. Egoism is a self-seeking desire to gain advantages at the expense of the rights, convenience or possessions of others. It is essentially antisocial. Egotism is overvaluation of self, one's opinions, ability or cleverness and corresponding undervaluation of others."

Now, just apply that definition of egoism to blocs, political parties, nations and you'll see why psychiatry is important in the new world. The more people who understand it, the more people will understand each other.

The words in "A Psychiatric Word Book" are important words. (\$1 postpaid from the Hospitals Press, Mental Hygiene Department, State of New York, Utica, N. Y.)

Popular Questions

Here are answers to three questions I was asked most frequently on a recent trip to the Middle West:

(1) When will the war be over? I don't know. I wouldn't be surprised if Germany cracked inside this winter. At least another year to clean up Japan.

(2) What about international co-operation afterward?

I don't know. The feeling I get in Washington is that there will be an honest attempt to form an international league, just as it is suggested in the Moscow conference.

(3) Will President Roosevelt run for a Fourth Term?

I doubt if even he knows that either. He probably will unless the war is done and over.

ON THE HOME FRONT

RUTH WYETH SPEARS

THE Heavenly Blue morning glories bloom indoors the year around in this bathroom. The thought of such morning cheer should prompt a man to get out his key hole saw and cut out scallops for the top and bottom of a

box cabinet like the blue and white one in the sketch, and should start someone making applique towels and curtains. The mirror on the window sill is kept from alighting forward by a pair of firmly anchored spools painted to match the frame.

NOTE: Mrs. Spears has designed a pattern (No. 207) for all types of cut-out scallops to be used in wood or fabric. The handy man will be fascinated with the variety of things he can make with this pattern. The Morning Glory pattern (No. 202) contains 10 designs. Send 15 cents for each pattern desired.

Can You Picture
KENTUCKY
without Newspapers?

Every hour of the day headline news of overwhelming interest to every person in Kentucky is being made all over the world. But without our modern communication systems and particularly our newspapers it would be next to impossible to find out what's going on.

Getting even closer to home, we wouldn't know what local boys are back on furlough—what the ball scores are—who's getting married and when—what's happening in the comic-strip world—what events are taking place all over town.

All of us should feel proud of the fine job newspapers are doing to keep Kentucky in touch with the times. It's a strong and free press, serving free people—one of the first things the dictators would suppress if they had the chance! And it would be hard to over-

estimate the part played by Kentucky's great dailies and weekly newspapers in furthering the war effort. Nearly a million people buy these papers—far greater numbers read them—the whole State relies upon them for information and inspiration.

For this reason Greyhound depends upon such newspapers as this one to carry its information on bus service to those Kentuckians who travel. Greyhound, in turn, carries many newspapers to rural areas not served by any other transportation system.

As fellow citizens of this State, the Greyhound Lines take much pleasure in helping to make near neighbors and good neighbors of all the communities we serve in Kentucky—linking them to each other and to the rest of the country, as newspapers do.

1500 "FORTS" FOR TOKYO AND BERLIN!

THE next time you pay your electric bill, remember: A large part of that money goes to blast the Axis! Yes, over 15c of every dollar you turn over to us, we turn over to the federal government as taxes. In terms of the entire industry, that's over 400 million dollars — enough to buy more than 1500 giant bombers — at a quarter-million each.

And that's not all! Over 8c per dollar in addition goes to local and state governments — for your schools, roads, police and fire protection.

Altogether, from every dollar you pay us, we pass along at least 24c as taxes. And we do it willingly — in the face of higher costs and lower prices. Since no other electric power is federally taxed, we are often asked: "How can you manage?" Well, by business management — which means: efficiency — economy — careful planning!

Don't Waste Electricity Just Because It Isn't Rationed!
